As a County Commissioner, you are faced daily with the daunting task of understanding a myriad of county issues and implementing complex programs and services. This must be done in such a way as to best meet the needs of your constituents, while holding the line on precious tax dollars.

The *South Dakota Association of County Commissioner’s Handbook* has been established as a vital tool to aid county commissioners in managing and conducting the affairs of county government. It is the intent of this edition of the *Handbook* to outline the major statutory requirements which must be met by either a particular commissioner or the governing body as a whole when discharging the duties of office and conducting the affairs of county government.

The laws of the State of South Dakota which relate to county government range from restrictive to permissive. It should always be remembered that this *Handbook* is not all encompassing and that only an outline of the statutory scheme of county government has been presented. This *Handbook* can and should be considered merely as a guide and the county official should always refer to the South Dakota Codified Laws and its pocket supplements for the exact content of the law before taking any action. It is recommended that your states attorney be consulted on all legal matters.

This *Handbook* is comprised of a collection of information covering topics that county commissioners use on a regular basis. It is our intention to keep the information current and make any necessary revisions to content. Please review it, use it often and give the association office feedback on its effectiveness. Your thoughts are welcome and encouraged.

South Dakota has 66 counties -- 64 organized and 2 unorganized (Oglala Lakota and Todd) -- ranging in geographic size from as little as 412 square miles in Clay County to as many as 3471 square miles in Meade County. According to 2020 census figures South Dakota Counties range in population from 917 in Jones County to 197,214 in Minnehaha County. The first counties -- Yankton, Minnehaha, Bon Homme, Clay and Union -- were organized in 1862.

The following excerpts are reprinted from the *South Dakota Journal of County Government*. The message of the article rings as true today as it did when it was printed in August, 1954 -- "County Government Is Important!"

"County Government Is Important!"

*Few citizens appreciate the great importance of county government in South Dakota. Events on the national and state levels tend to overshadow the activities of local government. Yet the most direct contact which the average citizen has with government is in his home community and county.*

*The numerous units of local government are important because they are close to the people and afford the most direct opportunity for participation by citizens in public affairs. The real testing ground for democracy is at the local level.*

*Another indication of the importance of the county is found in the part it plays in the general scheme of state government. The county in South Dakota is, by all odds, the most important unit for the local administration of governmental policies in which the state has a primary interest. As such, it is assigned functions and responsibilities which it must discharge in the manner prescribed by the state and with respect to which the county officials may exercise little or no discretion. In addition, counties are permitted to engage in a variety of activities at the discretion of the governing body. They are authorized, for example, to maintain parks and libraries, support fairs, carry out animal and insect control measures, furnish agricultural extension services, cooperate with other units of government in the purchase and operation of fire fighting equipment and levy a tax for snow removal purposes.*

*Noteworthy among the functions required to be performed by the county are such time-honored activities as judicial administration, law enforcement, election administration, land title recording, tax collection, land surveying and common school supervision. Conspicuously active in the discharge of these functions are such constitutionally established officers as the county judge, clerk of courts, sheriff, states attorney, coroner, auditor, register of deeds, treasurer and county superintendent of schools. These popularly-elected officers, along with such appointive officers as are necessary, work with the governing body to provide the ever-expanding services which county governments render to the public.*

*Undoubtedly the most important agency in the entire county government is the board of county commissioners, which under South Dakota law may consist of either three or five members.*
Popularly elected for four-year terms, the members of the board constitute collectively the basic policy determining body. Although the board is restricted by state law in its determination of policy involving the administration of the services required to be carried on in the county, it has a high degree of discretion in those fields of action which are permissive. Thus the board may decide whether or not the county shall maintain a park or a library, or whether a veteran's service office shall be established. It fixes the appropriations for all county activities which in itself is a highly significant policy function.

The board is also the nearest thing to a central executive authority existing in South Dakota's county governments. As an administrative and supervisory agency, its influence is felt throughout the entire structure. Although its appointive power is limited, all appointments made by the other elective officers are subject to its approval. It supervises the purchase and care of county government, approves bills against the county, and audits the books of the county officers. In point of fact, the board plays some part in the administration of almost every county function.

It is but realistic to recognize that today, county government is extremely important in terms of the services it renders and the costs of its operation. Within the framework of our concept of local self-government, it would appear that in the future as in the past, the effectiveness of this area of government will depend in considerable measure on the work of the persons who make up its governing boards and that public understanding of the problems facing county commissioners can be of great significance in aiding these officials in improving the quality of government.

In 1964 and 1966, two constitutional amendments were approved by the electorate to provide for the consolidation of two or more county offices with approval of the county voters, to abolish the office of the county surveyor and to abolish the office of county superintendent of schools with voter approval as provided by the legislature.

The 1986 legislature authorized an optional form of county government. In addition to the traditional county commissioner form of government, a county may adopt a county commissioner-appointed county manager form of government. Under this form of government the county commission is the legislative governing body. The county manager is the chief administrative officer of the county and is responsible for the proper administration of the affairs of county government. Among other duties, the county manager is responsible for preparing and implementing the county budget. The voters of a county must approve the adoption of a county commissioner-county manager form of government.

Other government operation options include charters and home rule. The first plan would allow the people to choose a charter from several alternatives that have previously been drawn up by the legislature. At least nine states, including South Dakota, have adopted county home rule amendments that permit a county to draw up its own charter subject to certain limitations. Home rule allows local governments to determine the organization, procedure and powers of their own governments, and a maximum of freedom from control by either the legislature or state administrative officers. Both optional charters and home rule require extensive changes in state constitutions and laws. Few counties in the states where optional charters and home rule are permitted...
have taken advantage of the opportunities.

In addition, South Dakota law allows up to 7 commissioners, however, no county currently has more than 5.

The salaries of all elected county officials vary from one county to another in relation to the population of each county. South Dakota law prescribes the minimum salaries for elected county officials based on county population.

**County Officials (alphabetically) and the Services They Provide**

**AUDITOR** -- The county business manager. The Auditor is responsible for commissioner proceedings, agendas and records, accounting records, revenue and expense reports, voter registration and elections. Businesses apply for beer and liquor licenses with the Auditor. The Auditor also figures real estate and mobile home taxes and handles county bid lettings. In many cases, the Auditor also manages medical indigent claims and employee drug and alcohol testing programs. The Auditor and Treasurer work in conjunction to pay county bills.

**CLERK OF COURTS** -- The Clerk of Courts in each county maintains the official files on all cases brought before the court. Clerks of Court are also empowered to act as lay magistrates if so appointed. This office also deals with matters including child support and restitution, fines, small claims, divorces, civil court, adoption and passports.

**COMMISSIONERS** -- Often scrutinized is the important role of the men and women who shoulder the responsibility of county government through service as a County Commissioner. The acts of county commissioners control the destiny, prosperity and general well-being of the residents and businesses of South Dakota. Each county has a board of 3-5 Commissioners who are elected to staggered terms of 4 years. They are responsible for the oversight of every service that each county office provides. In general, County Commissioners are responsible for the care and preservation or sale of all county property; the audit of accounts of all officers having the care, management, collection or disbursement of any money belonging to the county; levying taxes; construction and repair of bridges; to open, lay out, vacate and change highways; to purchase or acquire grounds for courthouse, jail or other building sites; to establish election precincts in the county and appoint the judges of election; and as a board of equalization, to equalize the assessment roll of the county in the manner provided by law; to furnish necessary equipment and supplies for county offices; to superintend the fiscal concerns of the county and secure their management in the best possible manner; to regulate the transaction of business in alcoholic beverages; to make ordinances prohibiting the sale or exhibition of any obscene matter; and for zoning, solid waste and water management along with a host of other issues that arise affecting the county.

**CONSERVATION OFFICER** -- A conservation district focuses on natural resource problems and solutions. They cannot levy taxes, but can request support from the county and state. They implement conservation practices that keep air, land and water healthy and productive; conserve and restore wetlands, protect groundwater resources; plant trees and other land covers to hold soil in place, clean the air, provide cover for wildlife and beautify neighborhoods.
CORONER -- Examines bodies and circumstances surrounding death. Provides for delivery of body to family or for burial if the deceased has no family.

DIRECTOR OF EQUALIZATION -- County Directors of Equalization are appointed to their office by the board of county commissioners. Their responsibility is to assess all real property in the county for property tax purpose. By law, the assessed value must be its full and true or market value. Persons dissatisfied with their assessment may appeal to their local board of equalization, county board of equalization and ultimately a state review board or directly to circuit court.

EMERGENCY MANAGER -- Working closely with federal and state officials, the County Civil Defense/Emergency Management Director plans for and manages disasters. In many counties, this office is combined with another county office.

HIGHWAY SUPERINTENDENT -- The County Highway Superintendents, subject to the approval of the Board of County Commissioners, are in charge of constructing, maintaining and repairing all of South Dakota’s 24,000 miles of county roads and 3,500 bridges. Highway Superintendents, in many cases, also maintain the township roads in their county. In each county, the Highway Superintendent is charged with the direction and supervision of work and keeps record of costs. The Highway Superintendent must approve all bills associated with county road maintenance before payment. Payment for work on county road systems is made from the county road and bridge fund.

JUDGE -- Circuit court judges are elected for 8-year terms by the voters of the circuit they serve. They hear both civil and criminal cases. Circuit judges rule on cases without a jury. In cases tried before a jury, the judge rules on what evidence may be considered by jurors in reaching their verdict. They also may hear contested small claims and misdemeanor cases and preliminary hearings in criminal cases. Each circuit is staffed by both law trained and lay magistrates who act as judges in criminal cases involving less serious crimes and in civil cases involving small amounts of money.

NURSE -- The Board of County Commissioners of any county may at any time employ nursing personnel.

REGISTER OF DEEDS -- The county Register of Deeds issues and files marriage licenses, birth and death certificates, burial permits, real estate transactions (including deeds, mortgages and mortgage transfers), federal and state tax liens, state unemployment tax, military discharge records, and business licenses. The Register of Deeds is also responsible for recording all liens, cancelling liens, issuing duplicate titles, survey plat certificates and county welfare liens. The Register of Deeds is the official county record keeper.

SHERIFF -- The county sheriff assures that all the laws of the state are executed and enforced. He is also responsible for pursuing and apprehending all felons, executing all writs, warrants and other process from any court or magistrate. He may contain or dispose of any dangerous animal.

STATES ATTORNEY -- The States Attorney, elected by the voters of each county, appears in all
courts of the county to prosecute or defend on behalf of the state or county, all actions or pro-
ceedings, civil or criminal, in which the state or county is interested or a party.

**TREASURER** -- The Treasurer is the collector of taxes and has the duty to receive all money 
belonging to the county from whatever source (taxes, fines, etc.). The Treasurer maintains ac-
counting records and is responsible for county fund investment. The Treasurer and Auditor work 
in conjunction to pay county bills. The county Treasurer is responsible for issuing motor vehicle 
registration and licenses along with reporting them to the SD Dept. of Motor Vehicles.

**VETERANS SERVICES OFFICER** -- The Board of Commissioners in each county appoints a 
veterans services officer (usually part-time or as part of another county office) to assist veterans 
and their families in accessing benefits available through the United States Veterans Administra-
tion.

**WEED & PEST SUPERVISOR** -- Under the administration of the SD Dept. of Agriculture, 
each county Board of Commissioners appoints or provides for the election of a county weed and 
pest board consisting of 5-7 members, one of which must be a Commissioner. They may spend 
county funds to remove weeds and pests and collect the money from the landowner.

**WELFARE DIRECTOR** -- The County Welfare Official is responsible for procuring financial 
assistance for the needy through federal, state or county aide programs. Counties may provide 
emergency funds for heat, burial, medical, housing, food, utilities etc. In many cases, the County 
Auditor also acts as the County Welfare Official, or the Welfare office is combined with another 
county office such as Veterans Services.

**County Revenue**
The money used by counties in South Dakota to finance their activities is obtained primarily 
from taxes levied on land and structures -- in other words, Property Taxes. It should be noted 
that South Dakota's 66 counties receive only about 26% of the total property taxes paid by the 
public. Schools receive about 54% of property taxes, municipalities receive about 13%, town-
ships receive about 2% and special taxing districts receive about 5%. The 1995 legislature 
placed a cap on property tax revenue increases. Counties are prohibited from increasing property 
tax revenues by more than the consumer price index or 3%, whichever is lower. Other revenue 
resources for county services include license plate fees, wheel tax and recording fees.

**County Expenditures**
Counties maintain approximately 35,000 miles of roads and 4,000 bridges on county and local 
road systems, an area where they spend a considerable amount of their annual budgets. County 
roads are a necessary part of any county infrastructure. Another large line item of county budg-
ets is spent on law enforcement, jails and court costs with no real possibility of any substantial 
savings without first reducing crime (virtually impossible). Miscellaneous services such as ex-
tension, conservation, civil defense and emergency management services consume county funds 
as well as welfare and care for the medically indigent, another area where cost reduction is not 
likely. The care of county buildings, grounds and operation of county offices, including salaries 
of officials and elections are other important county expenditures.
 Counties and Regional Planning Districts

Counties have shown a willingness to cooperate among themselves and with municipalities through regional planning and development districts. Encouraged through the federal Model Rural Development program, the state was divided into six planning districts during the 1970s for certain state and federal purposes. In some instances, state and federal programs are managed through these sub-state regions. The counties and municipalities within these regions have formed Planning and Development Districts composed of representatives of these local governments. The staffs are available to member governments to aid them in their dealings with the state and federal governments as well as to help coordinate planning and programs developed on a regional basis. Their offices are in Sioux Falls, Rapid City, Aberdeen, Yankton, Pierre and Watertown.
Today, citizens depend on county government more than ever before, which makes it more important than ever that qualified, dedicated people run for the office of county commissioner.

The work of an elected county official involves a more complex environment than your predecessors faced a generation, or even a few years ago. Most counties today are involved in far more than such traditionally mandated services as public records, law enforcement and tax collection. Today's county government juggles priorities and concerns in such areas as housing, environmental protection, transportation and economic development.

Commissioners in South Dakota come from a variety of backgrounds. Farmers, teachers, business people, lawyers, homemakers and retired citizens have all been elected county commissioners. No particular job experience or education is known to be the best preparation for success as a commissioner. Familiarity with some aspects of government, budgeting, personnel management, communication, and the law can be useful. There are two things that are essential requirements for being an effective county commissioner though - knowledge of your community and ethical behavior.

Once elected, South Dakota county commissioners are offered workshops to become familiar with the job by the South Dakota Association of County Commissioners (SDACC).

**What are Some Responsibilities of the County Commission?**

Powers are limited by state law, but commissioners may exercise broad authority in these and other areas:

- Provide for law enforcement and correctional services in the county;
- To levy a tax not exceeding the amount authorized by law, and to liquidate indebtedness;
- To construct and repair bridges; maintain county roads; to purchase or acquire grounds for courthouse, jail, or other building sites, locate or relocate the courthouse on such sites;
- To establish election precincts in its county and appoint the judges of election; and, as a board of equalization, to equalize the assessment roll of its county in the manner provided by law;
- To superintend the fiscal concerns of the county and secure their management in the best possible manner;
- To establish, promote and support community development;
- To develop, enact and enforce building codes;
- To protect the general health and safety of county residents

No counties provide exactly the same set of services. When you look at the types of services that counties choose to provide, you see a broad range, including road maintenance, recycling programs, landfills, hospitals and/or nursing homes, libraries, parks and recreation, fire protection, and water and sewer facilities. For some counties, providing such services is relatively new and reflects the shifting responsibilities of formerly rural counties that now must meet the demands of growing suburban populations.
Introduction

Because a number of other county officials are elected directly by the people of the county, the commissioners cannot directly control all county policies. Even though they have to budget for these offices, county commissioners have little or no say in how they are run. Many citizens do not understand that their commissioners’ power is limited in this way. These are some of the other elected offices of county government: county auditor, treasurer, register of deeds, sheriff, and coroner. Also, school systems in South Dakota operate independently of the county governments.

Duties of a County Commissioner

County leaders must be versatile. Of the different levels of government, local government has the most immediate effect on people’s lives because it is so close to where they live. In a single day you may find yourself leading, facilitating, convening, brokering, making tough decisions, and developing consensus.

Talking with constituents is a big part of the job. They may call you at home, collar you at the movies or at the hardware store. Besides responding to constituent requests, most elected officials want to be out and about, where they stay informed on what is happening in their county. You will soon learn that on controversial issues you sometimes hear from supporters, but you are certain to hear from opponents. As an elected official, you have to make a decision that is in the best interest of the entire county.

Even a lifetime in government cannot prepare you for every curve ball the political world will pitch. To be ready for the challenges, you should:

- Have a vision for the county’s future;
- Keep an open mind;
- Maintain high ethical standards;
- Know the issues;
- Know your constituents and the people who will work with you;
- Focus on what is best for the county;
- Be honest with the public, the media and other officials;
- Have confidence in your qualifications;
- Separate your emotions from your responsibilities.

A commissioner who does a good job provides true public service and is a leader in the community

Some Problems Facing County Government Today

Mandates

As a commissioner, one of the first things you discover is that many decisions affecting your term of office have already been made. One reason for this involves the issue of mandates.

Mandates are legal requirements imposed by federal and state governments. Local government mandates are often passed without funding by state and federal lawmakers. In these cases, local governments may have to pay the cost of implementing the mandate. Some examples of unfunded mandates are those setting requirements for public health, welfare and social services, treat-
ment of prisoners, providing court-appointed legal representation for those who cannot afford it and voter registration.

When commissioners begin working on the county budget, many of the expenditures have already been determined by mandates that must be met by certain deadlines. Because the end-of-year budget must balance, only a portion of the budget is left to pay for everything else that county citizens want. Make sure you know what is legally mandated by the state and federal government before promising to eliminate certain programs and services.

**Revenue Sources**  
Raising revenue to pay for all the services that county government performs is one of the biggest challenges facing county commissioners. Citizens often expect government to deliver more and better services to meet challenging community needs but they are rarely enthusiastic about paying the bill. Because raising taxes is never popular, counties are always looking at ways to spread the tax burden by expanding their source of revenue or finding new ones to keep up with increasing demands. South Dakota law limits the opportunities that counties have to raise revenue, so commissioners are not always free to take any approach that seems attractive. The county property tax accounts for about 58 - 70% percent of all county resources. At the same time, commissioners need to find ways to conduct government business more efficiently and eliminate waste so that tax dollars are spent wisely.
**Ethics in County Government**
The legitimacy of a democratic government rests on its ability to gain the trust of its citizens. Corrupt government officials and staff who fail to uphold basic standards of ethics completely undermine the role of public service. At the core of decisions, officials are expected to keep the interest of the public—not themselves—in mind.

While the most prominent cases of public corruption have occurred on the federal and state levels, county governments are not exempt from adhering to ethical guidelines. In many cases, counties have less oversight and accountability making it easier to get away with unethical practices. For that reason, it can be very helpful for counties to utilize codes of ethics to increase accountability and principled conduct.

**Why Do Counties Need a Code of Ethics?**
Most people interpret ethical conduct in black and white—there are right things to do and then there are wrong things. However, upon entering into public office, many public officials quickly realize that a vast array of ethical dilemmas fall into a menacing “gray” area where the “right thing to do” is not easily apparent. Making the right choice in a difficult situation is not always so straightforward. In many instances, just the appearance of wrongdoing, whether illegal or unethical activity has actually occurred, can create major problems for county officials.

When making a difficult ethical decision, government officials should be able to ask themselves, “Would I be willing to defend my actions on the front page of the newspaper, and could I do so successfully?” A code of ethics for a county or local municipality can be a useful tool in eliminating ethical confusion and misunderstandings, providing a concrete framework for acceptable conduct.

**How should a Code of Ethics be written?**
Before determining what content should be integrated into a Code of Ethics, the purpose of the code must be decided. Is the code designed to inspire officials or to simply regulate the behavior of officials? Different kinds of codes are designed to serve different purposes. For some counties, a “statement of values” or a “mission statement” are sufficient means of portraying standards of ethics.

However, if it is clear that a broader, more detailed code of ethics is necessary, then one should be constructed in the proper form. The most common and effective layout divides the code into two parts. First, an aspirational section frequently includes a preamble and outlines the ideals of the county. The second section typically sets forth the rules or guidelines that county officials and employees are expected to uphold.

Once these two sections have been drawn up, the enforcement process must be developed. Will there be penalties for violating the code? If so, how will they be administered? Additionally, counties must look at how the code will be implemented and advertised to the staff, as well as to county residents.
What topics should a Code of Ethics attempt to address?

Transacting business is one of the most common areas included. This is generally where most citizen complaints are “conflicts of interest” issues. A county may contract or do business with an employee’s or county official’s business as long as they are not involved in the award of the business contract.

Conflicts in Voting Procedures can be another problematic area. This applies specifically to county commissioners and board members and generally says that they should abstain from a vote on issues on which they would profit or enhance a relationship.

Acceptance of gifts is a touchy area. The inclusion of this area in a code generally defines a gift either by its economic value or as a promise for future benefits. Codes usually state that gifts are prohibited if official acts have or could occur.

Exploitation of Official Position is included in a code to prohibit elected officials from using their elected positions to obtain special privileges and exemptions.

Prohibition on the use of confidential information is always included to prohibit elected officials and other county employees from accepting payment to divulge information or from using confidential information for their own personal gain or benefit.

Financial Disclosure Reports are also typically included. This financial disclosure report, filed with the Secretary of State office, usually has a required form and includes an itemized source of income statement for the official. This regulation also requires candidates for elective office to satisfy financial disclosure regulations.

Outside employment rules are also often included in a code of ethics. This section of the code usually prohibits county employees from receiving payment for the same services they perform for the county from any other source. It also often includes a prohibition of certain kinds of outside employment for county employees.

Many more advanced codes include a two-year rule. This rule states that elected officials cannot lobby the county for any purpose, including doing business, for a period of two years after the end of their time in office.

Are Codes of Ethics always enough to thwart corruption?

Although ethics codes provide concrete rules for conduct in public office, they must not only be taken to heed by the officials themselves but also examined by an outside audience to ensure accountability. Oversight of ethical conduct is critical to the success of any sort of ethical guidelines. Depending on the size of the county and its history of unethical behavior, this “ethics inspector” can be anyone from another county official, staff member, or even a public citizen. Any person can report an ethics violation if there are sound rules in place.
Sample Code of Ethics

Preamble

The National Association of Counties (NACo) is committed to the highest standards of conduct by and among county officials in the performance of their public duties. Individual and collective adherence to high ethical standards by public officials is central to the maintenance of public trust and confidence in government.

While county officials agree on the need for proper conduct, they may experience personal conflict or differing view of values or loyalties.

In such cases the principles contained in this Code of Ethics provide valuable guidance in reaching decisions which are governed, ultimately, by the dictates of the individual conscience of the public official and his or her commitment to the public good.

Certain of these ethical principles are best expressed as positive statements: actions which should be taken; courses which should be followed; goals which should permeate both public and private conduct. Other principles are expressed as negative statements: actions to be avoided and conduct to be condemned.

The Code of Ethics for County Officials has been created by and for elected county officials. However, these principles apply to the day to day conduct of both elected and appointed officials and employees of county government.

__ County recognizes that this Code of Ethics should serve as a valuable reference guide for all those in whom the public has placed its trust.

Ethical Principles

The ethical county official should:

• Properly administer the affairs of the county.
• Promote decisions which only benefit the public interest.
• Actively promote public confidence in county government.
• Keep safe all funds and other properties of the county.
• Conduct and perform the duties of the office diligently and promptly dispose of the business of the county.
• Maintain a positive image to pass constant public scrutiny.
• Evaluate all decisions so that the best service or product is obtained at a minimal cost without sacrificing quality and fiscal responsibility.
• Inject the prestige of the office into everyday dealings with the public employees and associates.
• Maintain a respectful attitude toward employees, other public officials, colleagues and associates.
• Effectively and efficiently work with governmental agencies, political subdivisions and other organizations in order to further the interest of the county.
• Faithfully comply with all laws and regulations applicable to the county and impartially apply them to everyone.

The ethical county official should not:

• Engage in outside interests that are not compatible with the impartial and objective performance of his or her duties.
• Improperly influence or attempt to influence other officials to act in his or her own benefit.
• Accept anything of value from any source which is offered to influence his or her action as a public official.
• The ethical county official accepts the responsibility that his or her mission is that of servant and steward to the public.
A guide to South Dakota’s Open Meetings Law (Revised 2017)

WHAT IS SOUTH DAKOTA’S OPEN MEETINGS LAW?
South Dakota’s open meetings law embodies the principle that the public is entitled to the greatest possible information about public affairs and is intended to encourage public participation in government. SDCL 1-25-1 requires that official meetings of public bodies must be public and notice is to be given of such meetings 24 hours in advance of the meetings. The statute defines an “official meeting” as one where a quorum of the public body is present and at which official business of the body is discussed or decided, or where public policy is formulated. Openness in government is encouraged.

WHO DOES THE OPEN MEETINGS LAW APPLY TO?
The open meetings law applies to all public bodies “of the state or its political subdivisions” that exercise “sovereign power derived from state law.” SDCL 1-25-1. This includes cities, counties, school boards and other public bodies created by ordinance or resolution, such as appointed boards, task forces, and committees, so long as they have authority to actually exercise sovereign power. Although no court decisions have been issued on the subject, this probably does not include bodies that are not created by statute, ordinance, or resolution, or that serve only in an advisory capacity. The state Constitution allows the Legislature and the Unified Judicial System to create rules regarding their own separate functions.

ARE TELECONFERENCES CONSIDERED PUBLIC MEETINGS?
Yes. The open meetings law allows meetings, including executive or closed meetings, to be conducted by teleconference – defined as an exchange of information by audio, video, or electronic means (including the internet) – if a place is provided for the public to participate. In addition, for teleconferences where less than a quorum is present at the location open to the public, arrangements must also be made for the public to listen by telephone or internet (except for portions of meetings properly closed for executive sessions). The media and public must be notified of teleconference meetings under the same notice requirements as any other meeting. All votes shall be taken by roll call.

HOW ARE THE PUBLIC AND MEDIA NOTIFIED WHEN PUBLIC BUSINESS IS BEING DISCUSSED?
SDCL 1-25-1.1 requires that all public bodies except the state and each state board, commission, or department as provided in § 1-25-1.3, prominently post a notice and copy of the proposed agenda at the public body’s principal office. At a minimum, the proposed agenda must include the date, time, and location of the meeting and must be visible, readable, and accessible to the public for 24 continuous hours immediately preceding the meeting. Also, if the public body has its own website, the notice must be posted on the public body’s website upon dissemination of the notice. For special or rescheduled meetings, public bodies must comply with the regular meeting notice requirements as much as circumstances permit. The notice must be delivered in person, by mail, by email, or by telephone to all local news media who have asked to be notified. It is good practice for local media to renew requests for notification of special or rescheduled meetings at least annually. SDCL 1-25-1.3 varies slightly from SDCL 1-25-1.1 and requires the State, and each state board, commission, or department to give notice by posting a proposed
Meeting Laws

agenda at least 72 continuous hours before a meeting is scheduled to start (this does not include the day the agenda is posted, or any weekend or legal holiday). Each state board, commission, or department is also required to give notice of a public meeting by posting its proposed agenda on http://boardsandcommissions.sd.gov.

WHO ARE LOCAL NEWS MEDIA?
There is no definition of “local news media” in SDCL ch. 1-25. “News media” is defined in SDCL 13-1-57 generally as those personnel of a newspaper, periodical, news service, radio station, or television station regardless of the medium through which their content is delivered. The Attorney General is of the opinion that “local news media” is all news media – broadcast and print – that regularly carry news to the community.

CAN PUBLIC MEETINGS BE RECORDED?
Yes, SDCL 1-25-11 requires public bodies to allow recording (audio or video) of their meetings as long as the recording is reasonable, obvious, and not disruptive.

WHEN CAN A MEETING BE CLOSED TO THE PUBLIC AND MEDIA?
SDCL 1-25-2 allows a public body to close a meeting for the following purposes: 1) to discuss personnel issues pertaining to officers or employees; 2) consideration of the performance or discipline of a student, or the student’s participation in interscholastic activities; 3) consulting with or reviewing communications from legal counsel about proposed or pending litigation or contractual matters; 4) employee contract negotiations; or 5) to discuss marketing or pricing strategies of a publicly-owned competitive business.

The statute also recognizes that executive session may be appropriate to comport with other laws that require confidentiality or permit executive or closed meetings. Federal law pertaining to students and medical records will also cause school districts and other entities to conduct executive sessions or conduct meetings so as to refrain from releasing confidential information. Meetings may also be closed by cities and counties for certain economic development matters. SDCL 9-34-19. Note that SDCL 1-25-2 and SDCL 9-34-19 do not require meetings be closed in any of these circumstances. Any official action based on discussions in executive session must, however, be made at an open meeting.

WHAT IS THE PROPER PROCEDURE FOR EXECUTIVE SESSIONS?
Motions for executive sessions must refer to the specific state or federal law allowing for the executive session i.e. “pursuant to SDCL 1-25-2(3).” Also, best practice to avoid public confusion would be that public bodies explain the reason for going into executive session. For example, the motion might state “motion to go into executive session pursuant to SDCL 1-25-2(1) for the purposes of discussing a personnel matter,” or “motion to go into executive session pursuant to SDCL 1-25-2(3) for the purposes of consulting with legal counsel.”

Discussion in the executive session must be strictly limited to the announced subject. No official votes may be taken on any matter during an executive session. The public body must return to open session before any official action can be taken.
Board members could be held personally liable for the results of an official vote taken illegally during an executive session. For example, a contract approved only during an executive session could be found void and the board members could be required to repay any public funds spent under the contract.

**WHAT HAPPENS IF THE MEDIA OR PUBLIC IS IMPROPERLY EXCLUDED FROM A MEETING OR OTHER VIOLATIONS OF THE OPEN MEETING LAW OCCUR?**
Excluding the media or public from a meeting that has not been properly closed subjects the public body or the members involved to (a) prosecution as a Class 2 misdemeanor punishable by a maximum sentence of 30 days in jail, a $500 fine or both or (b) a reprimand by the Open Meeting Commission (“OMC”). The same penalties apply if the agenda for the meeting is not properly posted or other open meeting violations occur.

Also, action taken during any meeting that is not open or has not been properly noticed could, if challenged, be declared null and void. It could even result in personal liability for members of the governing body involved, depending upon the action taken.

**HOW ARE ISSUES REFERRED TO THE OPEN MEETINGS COMMISSION (“OMC”)?**
Persons alleging violations of the open meetings laws must make their complaints with law enforcement officials in the county where the offense occurred. After a signed notarized complaint is made under oath, and any necessary investigation is conducted, the State’s Attorney may (a) prosecute the case as a misdemeanor, (b) find that the matter has no merits and file a report with the Attorney General for statistical purposes or (c) forward the complaint to the OMC for a determination. The OMC is comprised of five State’s Attorneys appointed by the Attorney General. The OMC examines whether a violation has occurred and makes written public findings explaining its reasons. If you have questions on the procedures or status of a pending case, you may contact the Attorney General’s Office at 605-773-3215 to talk to an assistant for the OMC. Procedures for the OMC are posted on the website for the Office of Attorney General. [http://atg.sd.gov/](http://atg.sd.gov/).

**WHAT DOES THE TERM “SOVEREIGN POWER” MEAN?**
The open meetings law does not define this term, but it generally means the power to levy taxes, impose penalties, make special assessments, create ordinances, abate nuisances, regulate the conduct of others, or perform other traditional government functions. The term may include the exercise of many other governmental functions. If an entity is unclear whether it is exercising “sovereign power” it should consult with legal counsel.

**MAY AGENDA ITEMS BE CONSIDERED IF THEY ARE ADDED LESS THAN 24 HOURS BEFORE A MEETING?**
Proposed agendas for public meetings must be posted at least 24 hours in advance of the meeting. The purpose of providing advance notice of the topics to be discussed at a meeting is to provide information to interested members of the public concerning the governing body’s anticipated business. Typically the public body adopts the final agenda upon convening the meeting. At this time, the governing body may add or delete agenda items and may also change the order of business. In 2012, the South Dakota Supreme Court affirmed a South Dakota Circuit Court
decision which held that a preliminary agenda may be amended when the board takes action to formally adopt the meeting agenda. See Molden v. Grant-Deuel School Dist. 25-3, Order Directing Issuance of Judgment of Affirmance, So. Dak. Sup. Ct. # 26325, October 9, 2012. New items cannot be added after the agenda has been adopted by the governing body. Public bodies are strongly encouraged to provide 24 hours notice of all agenda items so as to be fair to the public and to avoid dispute. For special or rescheduled meetings, public bodies are to comply to the extent circumstances permit. In other words, posting less than 24 hours in advance may be permissible in emergencies.

ARE EMAIL DISCUSSIONS “MEETINGS” FOR PURPOSES OF THIS LAW?
The definition of an “official meeting” in SDCL 1-25-1 references teleconferences. The definition of a “teleconference” in SDCL 1-25-1.2 includes the exchange of information via the internet or any other electronic medium. The analysis of these two definitions leads to the conclusion that email discussions that include a quorum of a public body and which discuss the official business of that body could be considered “meetings” for purposes of the open meetings laws. Email participation in scheduling or similar activity would not, under this analysis, constitute a public meeting.

WHAT RECORDS MUST BE AVAILABLE TO THE PUBLIC IN CONJUNCTION WITH PUBLIC MEETINGS?
SDCL 1-25-1.4 requires state boards, commissions, or departments to make public meeting materials available on [http://boardsandcommissions.sd.gov](http://boardsandcommissions.sd.gov). SDCL 1-27-1.16 requires that any other public body must post meeting materials on the public body’s website (where one exists), or make those materials available to the public at least twenty-four hours prior to the meeting or when made available to the members of the public body, whichever is later. Finally, SDCL 1-27-1.17 requires that draft minutes of public meetings must be made available to the public at the principal place of business for the public body within 10 business days after the meeting (or made available on the website for the public body within five business days).

These laws are in addition to any specific requirements for public bodies (i.e., publication requirements in state laws pertaining to cities, counties, or school districts). Enforcement of public records laws contained in SDCL ch. 1-27 are handled by separate procedures in SDCL 1-27-35, et.seq. rather than the open meeting procedures described above. Violations of SDCL 1-27-1.16 and 1-27-1.17 are also Class 2 misdemeanors.

WHAT REQUIREMENTS APPLY TO TASK FORCES, COMMITTEES AND WORKING GROUPS?
Task forces and committees that exercise “sovereign power” and are created by statute, ordinance, or proclamation are required to comply with the open meetings law. SDCL 1-25-1. Task forces, committees, and working groups that are not created by statute, ordinance, or proclamation, or are advisory only may not be subject to the open meetings law, but are encouraged to comply to the extent possible when public matters are discussed. Ultimately, if such advisory task forces, committees and working groups present any reports or recommendations to public bodies, the public bodies must wait until the next meeting (or later) before taking final action on the recommendations. SDCL 1-27-1.18.
PERTINENT S.D. OPEN MEETINGS STATUTES

1-25-1. OPEN MEETINGS. The official meetings of the state, its political subdivisions, and any public body of the state or its political subdivisions are open to the public unless a specific law is cited by the state, the political subdivision, or the public body to close the official meeting to the public. For the purposes of this section, a political subdivision or a public body of a political subdivision means any association, authority, board, commission, committee, council, task force, school district, county, city, town, township, or other agency of the state, which is created or appointed by statute, ordinance, or resolution and is vested with the authority to exercise any sovereign power derived from state law. For the purposes of this section, an official meeting is any meeting of a quorum of a public body at which official business of that public body is discussed or decided, or public policy is formulated, whether in person or by means of teleconference.

It is not an official meeting of one political subdivision or public body if its members provide information or attend the official meeting of another political subdivision or public body for which the notice requirements of § 1-25-1.1 have been met.

Any official meeting may be conducted by teleconference as defined in § 1-25-1.2. A teleconference may be used to conduct a hearing or take final disposition regarding an administrative rule pursuant to § 1-26-4. A member is deemed present if the member answers present to the roll call conducted by teleconference for the purpose of determining a quorum. Each vote at an official meeting held by teleconference shall be taken by roll call.

If the state, a political subdivision, or a public body conducts an official meeting by teleconference, the state, the political subdivision, or public body shall provide one or more places at which the public may listen to and participate in the teleconference meeting. For any official meeting held by teleconference, which has less than a quorum of the members of the public body participating in the meeting who are present at the location open to the public, arrangements shall be provided for the public to listen to the meeting via telephone or internet. The requirement to provide one or more places for the public to listen to the teleconference does not apply to an executive or closed meeting.

If a quorum of township supervisors, road district trustees, or trustees for a municipality of the third class meet solely for purposes of implementing previously publicly-adopted policy, carrying out ministerial functions of that township, district, or municipality, or undertaking a factual investigation of conditions related to public safety, the meeting is not subject to the provisions of this chapter. A violation of this section is a Class 2 misdemeanor.

1-25-1.1. PUBLIC NOTICE. All public bodies, except the state and each state board, commission, or department as provided in § 1-25-1.3, shall provide public notice, with proposed agenda, that is visible, readable, and accessible for at least an entire, continuous twenty-four hours immediately preceding any meeting, by posting a copy of the notice, visible to the public, at the principal office of the public body holding the meeting. The proposed agenda shall include the date, time, and location of the meeting. The notice shall also be posted on the public body’s website upon dissemination of the notice, if such a website exists. For special or rescheduled meetings,

the information in the notice shall be delivered in person, by mail, by email, or by telephone, to members of the local news media, who have requested notice. For special or rescheduled meetings, all public bodies shall also comply with the public notice provisions of this section for regular meetings to the extent that circumstances permit. A violation of this section is a Class 2 misdemeanor.

1-25-1.2. TELECONFERENCE DEFINED. For the purpose of this chapter, a teleconference is information exchanged by any audio, video, or electronic medium, including the internet. 1-25-1.3. Public notice OF state meetings. The state and each state board, commission, or department shall provide public notice of a meeting by posting a copy of the proposed agenda at the principal office of the board, commission, or department holding the meeting. The proposed agenda shall include the date, time, and location of the meeting, be visible, readable, and accessible to the public. The agenda shall be posted at least seventy-two hours before the meeting is scheduled to start according to the agenda. The seventy-two hours does not include the day the agenda is posted nor saturday, sunday, or legal holidays. The notice shall also be posted on a state website, designated by the commissioner of the bureau of finance and management. For any special or rescheduled meeting, the information in the notice shall be delivered in person, by mail, by email, or by telephone, to members of the local news media who have requested notice. For any special or rescheduled meeting, each state board, commission, or department shall also comply with the public notice provisions of this section for a regular meeting to the extent that circumstances permit. A violation of this section is a class 2 misdemeanor.

1-25-2. EXECUTIVE OR CLOSED MEETINGS. Executive or closed meetings may be held for the sole purpose of:

1) Discussing the qualifications, competence, performance, character or fitness of any public officer or employee or prospective public officer or employee. The term “employee” does not include any independent contractors.

2) Discussing the expulsion, suspension, discipline, assignment of or the educational program of a student or the eligibility of a student to participate in interscholastic activities provided by the South Dakota High School Activities Association;

3) Consulting with legal counsel or reviewing communications from legal counsel about proposed or pending litigation or contractual matters;

4) Preparing for contract negotiations or negotiating with employees or employee representatives;

5) Discussing marketing or pricing strategies by a board or commission of a business owned by the state or any of its political subdivisions, where public discussions would be harmful to the competitive position of the business.

However, any official action concerning such matters shall be made at an open official meeting. An executive or closed meeting shall be held only upon a majority vote of the members of such body present and voting, and discussion during the closed meeting is restricted to the purpose specified in the closure motion. Nothing in 1-25-1 or this section may be construed to prevent an executive or closed meeting if the federal or state Constitution or the federal or state statutes require or permit it. A violation of this section is a Class 2 misdemeanor.
9-34-19. EXECUTIVE SESSIONS (MUNICIPAL AND COUNTIES). Any documentary material or data compiled or received by a municipal corporation, county, or an economic development corporation receiving municipal or county funds, for the purpose of furnishing assistance to a business, to the extent that such material or data consists of trade secrets or commercial or financial information regarding the operation of such business, is not a public record. Any discussion or consideration of such trade secrets or commercial or financial information by a municipal corporation or county may be done in executive session closed to the public.

1-25-6. DUTY OF STATE’S ATTORNEY. If a complaint alleging a violation of chapter 1-25 is made pursuant to § 23A2-1, the state’s attorney shall take one of the following actions:

(1) Prosecute the case pursuant to Title 23A;
(2) Determine that there is no merit to prosecuting the case. Upon doing so, the state’s attorney shall send a copy of the complaint and any investigation file to the attorney general. The attorney general shall use the information for statistical purposes and may publish abstracts of such information, including the name of the government body involved for purposes of public education; or
(3) Send the complaint and any investigation file to the South Dakota Open Meetings Commission for further action.

1-25-6.1. DUTY OF STATE’S ATTORNEY (COUNTY COMMISSION ISSUES). If a complaint alleges a violation of this chapter by a board of county commissioners, the state’s attorney shall take one of the following actions:

(1) Prosecute the case pursuant to Title 23A;
(2) Determine that there is no merit to prosecuting the case. The attorney general shall use the information for statistical purposes and may publish abstracts of the information as provided by § 1-25-6;
(3) Send the complaint and any investigation file to the South Dakota Open Meetings Commission for further action; or
(4) Refer the complaint to another state’s attorney or to the attorney general for action pursuant to § 1-25-6.

1-25-7. REFERRAL TO OMC. Upon receiving a referral from a state’s attorney or the attorney general, the South Dakota Open Meetings Commission shall examine the complaint and investigatory file submitted by the state’s attorney or the attorney general and shall also consider signed written submissions by the persons or entities that are directly involved. Based on the investigatory file submitted by the state’s attorney or the attorney general and any written responses, the commission shall issue a written determination on whether the conduct violates this chapter, including a statement of the reasons therefor and findings of fact on each issue and conclusions of law necessary for the proposed decision. The final decision shall be made by a majority of the commission members, with each member’s vote set forth in the written decision. The final decision shall be filed with the attorney general and shall be provided to the public entity and or public officer involved, the state’s attorney, and any person that has made a written request for such determinations. If the commission finds a violation of this chapter, the commission shall issue a public reprimand to the offending official or governmental entity. However, no violation found by the commission may be subsequently prosecuted by the state’s attorney or the attorney gen-

eral. All findings and public censures of the commission shall be public records pursuant to § 1-27-1. Sections 1-25-6 to 1-25-9, inclusive, are not subject to the provisions of chapter 1-26.

1-25-8. OMC MEMBERS. The South Dakota Open Meeting Commission shall be comprised of five state’s attorneys appointed by the attorney general. Each commissioner shall serve at the pleasure of the attorney general. A chair of the commission shall be chosen annually from the membership of the commission by a majority of its members.

1-25-9. OMC CONFLICTS. No member of the commission may participate as part of the commission or vote on any action regarding a violation of this chapter if that member reported or was involved in the initial investigation, is an attorney for anyone who reported or was involved in the initial investigation, or represents or serves as a member of the governmental entity about whom the referral is made. The provisions of this section do not preclude a commission member from otherwise serving on the commission for other matters referred to the commission.

1-27-1.16. MEETING PACKETS AND MATERIALS. If a meeting is required to be open to the public pursuant to § 1-25-1 and if any printed material relating to an agenda item of the meeting is prepared or distributed by or at the direction of the governing body or any of its employees and the printed material is distributed before the meeting to all members of the governing body, the material shall either be posted on the governing body’s website or made available at the official business office of the governing body at least twenty-four hours prior to the meeting or at the time the material is distributed to the governing body, whichever is later. If the material is not posted to the governing body’s website, at least one copy of the printed material shall be available in the meeting room for inspection by any person while the governing body is considering the printed material. However, the provisions of this section do not apply to any printed material or record that is specifically exempt from disclosure under the provisions of this chapter or to any printed material or record regarding the agenda item of an executive or closed meeting held in accordance with § 1-25-2. A violation of this section is a Class 2 misdemeanor. However, the provisions of this section do not apply to printed material, records, or exhibits involving contested case proceedings held in accordance with the provisions of chapter 1-26.

1-27-1.17. DRAFT MINUTES. The unapproved, draft minutes of any public meeting held pursuant to § 1-25-1 that are required to be kept by law shall be available for inspection by any person within ten business days after the meeting. However, this section does not apply if an audio or video recording of the meeting is available to the public on the governing body’s website within five business days after the meeting. A violation of this section is a Class 2 misdemeanor. However, the provisions of this section do not apply to draft minutes of contested case proceedings held in accordance with the provisions of chapter 1-26.

1-27-1.18. WORKING GROUP REPORTS. Any final recommendations, findings, or reports that result from a meeting of a committee, subcommittee, task force, or other working group which does not meet the definition of a political subdivision or public body pursuant to § 1-25-1, but was appointed by the governing body, shall be reported in open meeting to the governing body which appointed the committee, subcommittee, task force, or other working group. The governing body shall delay taking any official action on the recommendations, findings, or reports until the next meeting of the governing body.
Parliamentary Procedure

What Is Parliamentary Procedure?
It is a set of rules for conduct at meetings, that allows everyone to be heard and to make decisions without confusion.

Why is Parliamentary Procedure Important?
Because it's a time tested method of conducting business at meetings and public gatherings. It can be adapted to fit the needs of any organization. Today, Robert's Rules of Order newly revised is the basic handbook of operation for most clubs, organizations and other groups. So it's important that everyone know these basic rules!

Organizations using parliamentary procedure usually follow a fixed order of business. Below is a typical example:
1. Call to order.
2. Roll call of members present.
3. Reading of minutes of last meeting.
4. Officers reports.
5. Committee reports.
6. Special orders --- Important business previously designated for consideration at this meeting.
7. Unfinished business.
9. Announcements.
10. Adjournment.

The method used by members to express themselves is in the form of moving motions. A motion is a proposal that the entire membership take action or a stand on an issue. Individual members can:
1. Call to order.
2. Second motions.
3. Debate motions.
4. Vote on motions.

There are four Basic Types of Motions:
1. Main Motions: The purpose of a main motion is to introduce items to the membership for their consideration. They cannot be made when any other motion is on the floor, and yield to privileged, subsidiary, and incidental motions.
2. Subsidiary Motions: Their purpose is to change or affect how a main motion is handled, and is voted on before a main motion.
3. Privileged Motions: Their purpose is to bring up items that are urgent about special or important matters unrelated to pending business.
4. Incidental Motions: Their purpose is to provide a means of questioning procedure concerning other motions and must be considered before the other motion.
**How are Motions Presented?**

1. Obtaining the floor
   a. Wait until the last speaker has finished.
   b. Rise and address the Chairman by saying, "Mr. Chairman, or Mr. President."
   c. Wait until the Chairman recognizes you.

2. Make Your Motion
   a. Speak in a clear and concise manner.
   b. Always state a motion affirmatively. Say, "I move that we ..." rather than, "I move that we do not ...".
   c. Avoid personalities and stay on your subject.

3. Wait for Someone to Second Your Motion

4. Another member will second your motion or the Chairman will call for a second.

5. If there is no second to your motion it is lost.

6. The Chairman States Your Motion
   a. The Chairman will say, "it has been moved and seconded that we ..." Thus placing your motion before the membership for consideration and action.
   b. The membership then either debates your motion, or may move directly to a vote.
   c. Once your motion is presented to the membership by the chairman it becomes "assembly property", and cannot be changed by you without the consent of the members.

7. Expanding on Your Motion
   a. The time for you to speak in favor of your motion is at this point in time, rather than at the time you present it.
   b. The mover is always allowed to speak first.
   c. All comments and debate must be directed to the chairman.
   d. Keep to the time limit for speaking that has been established.
   e. The mover may speak again only after other speakers are finished, unless called upon by the Chairman.

8. Putting the Question to the Membership
   a. The Chairman asks, "Are you ready to vote on the question?"
   b. If there is no more discussion, a vote is taken.
   c. On a motion to move the previous question may be adapted.

**Voting on a Motion:**
The method of vote on any motion depends on the situation and the by-law of policy of your organization. There are five methods used to vote by most organizations, they are:

1. *By Voice* -- The Chairman asks those in favor to say, "aye", those opposed to say "no". Any member may move for an exact count.
2. *By Roll Call* -- Each member answers "yes" or "no" as his name is called. This method is used when a record of each person's vote is required.
3. *By General Consent* -- When a motion is not likely to be opposed, the Chairman says, "if there is no objection ..." The membership shows agreement by their silence, however if one member says, "I object," the item must be put to a vote.
4. *By Division* -- This is a slight verification of a voice vote. It does not require a count unless the chairman so desires. Members raise their hands or stand.
5. *By Ballot* -- Members write their vote on paper, this method is used when secrecy is desired.
There are two other motions that are commonly used that relate to voting.
1. *Motion to Table* -- This motion is often used in the attempt to "kill" a motion. The option is always present, however, to "take from the table", for reconsideration by the membership.
2. *Motion to Postpone Indefinitely* -- This is often used as a means of parliamentary strategy and allows opponents of motion to test their strength without an actual vote being taken. Also, debate is once again open on the main motion.

Parliamentary Procedure is the best way to get things done at your meetings. But, it will only work if you use it properly.
1. Allow motions that are in order.
2. Have members obtain the floor properly.
3. Speak clearly and concisely.
4. Obey the rules of debate.

*Most importantly, BE COURTEOUS.*
County Budgets

The budget is one of the most important documents a county government prepares because it identifies services to be provided and how they are to be financed. Almost every decision, activity and program in county government can be expressed in the financial language of the budget. To fully understand county budgets, it is essential to know the critical parts of the budget document, the primary budget players, the budget process, and how the budget is a tool for governing.

Contingencies - SDCL 7-21-6.1 allows for a contingency to be adopted which shall not exceed five percent of the total county budget.

The contingency is reported as a line item of the General Fund. It is not a fund in and of itself. You may never spend directly against the contingency account. The contingency is not a fund, nor is it cash. It is budget authority which is the right to spend money.

By resolution of the board, the commissioners may transfer contingency amounts to other lines where budget increases are needed. (SDCL 7-21-32.2) Contingency transfers may be to:

a. Other line items of the General Fund
b. Newly created line items of the General Fund
c. Various line items of other funds

Budget Overexpenditures - SDCL 7-21-24 states that you cannot expend money unless you first have a budget provided. It takes good communication to prevent budget overdrafts. Communication is handled through the distribution of monthly status reports. The detail and types of reports to be received are up to each board. The review of this data is a necessary function of all county accounting systems.

Automatic Supplements - Statute provides a couple of situations to utilize shortcut procedures to increase the budget. They are:
- SDCL 7-21-20.1 for state and federal grants
- SDCL 7-21-32.1 for unanticipated reimbursements

In both of these cases the budget may be increased just by board approval. Make sure the budget increase occurs in the same year as the corresponding expenditure.

Supplements - There are two types of formal budget supplements provided by law. They are:
- SDCL 7-21-21 supplements for unanticipated disasters
- SDCL 7-21-22 supplements for indispensable functions

The supplement for unanticipated disasters may be adopted "without further notice or hearing". The justification for supplements is limited to a very small scope of disasters catastrophes, etc.

Capital Accumulations - SDCL 7-21-51 allows counties to accumulate monies for special purposes. The purpose must meet ALL of the following conditions:

a. It is extraordinary in nature
b. It exceeds the funding ability of a single budget year.
c. Results in the purchase of services, materials, supplies or equipment.

The resolution initiating this accumulation is passed by 60% of the board and clearly sets forth the purpose for which the funds are being accumulated.
**Transfers** - Special consideration must be given to interfund transfers during the budget process. Budgeting for interfund transfers will help plan and provide for the raising of the resources to be transferred. Many counties transfer on an annual basis from the General Fund to other funds.

**Surplus Cash** - SDCL 7-21-18.1 contains a 40% rule regarding surplus cash in counties. In applying the law to the General Fund, a formula has been devised to compute the amount of surplus cash, if any. The formula starts with the year end cash balance, deducts amounts such as account payable, capital accumulation reserves and amounts designated for the next year’s budget. The remaining cash balance is compared to determine if it exceeds 40% of next year’s budget.

The procedures for completing the budget should be executed in the following manner:

**May 15** County auditor prepares "Departmental Budget Request" and "Highway Department Budget Request" worksheets in duplicate, by completing "Amount Expended Prior Year" and "Budget for Current Year" columns. Distribute to appropriate department heads or officials.

**June 1** Respective department heads or officials complete the "Amount Requested" column, return worksheets to auditor.

**June** County auditor completes "Cash Balance Estimation Worksheet" for all county funds. Amounts of estimated cash balances determined on this worksheet are recorded on "Budget Worksheets Estimated Revenue" Estimated Cash Balance line for each fund. After determining estimated cash balances, the county auditor completes actual and estimated revenue columns on "Budget Worksheet Estimated Revenue" forms for each budgeted fund. Submit all budget worksheets to board of county commissioners for review. The board completes "Amount Approved" columns on Departmental Budget Request Forms, returns all forms to county auditor.

The "Worksheet to Determine Compliance with SDCL 7-21-18.1" should be completed only for the General Fund.

**July 30** County auditor prepares "Provisional Budget" form from the Departmental Budget Request Worksheets and previous year’s annual budget, submits "Provisional Budget" and supporting worksheet to board for approval.

**August** County commissioners publish provisional budget and notice of hearing to be held the first Tuesday in September in official newspapers. A second notice of hearing shall be published the following week. Publications must be completed before the first Tuesday in September. (SDCL 7-21-8 and 8.1)

**Sept** County commissioners must meet before October 1st to adopt provisional budget as the annual budget. Any changes in the provisional budget incorporated into the annual budget shall be published in the minutes of the board. (SDCL 7-21-12). The resolution together with annual budget so adopted shall be signed by members of the board, attested by county auditor and filed with county auditor. (SDCL 7-21-13). The resolution, including tax levies, shall be published in minutes of the board. A copy of annual budget, together with a report of annual levies, are filed with Department of Revenue BEFORE TAXES ARE EXTENDED on the tax lists. A copy of "Departmental Budget Request" worksheets indicating approved budgets are returned to appropriate department heads or officials, and a copy retained by county auditor so appropriate entries can be made in accounting records. It is necessary to retain all budget, estimated revenue and surplus cash balance worksheets for audit purposes.

Questions regarding budget procedure should be directed to:
Rod Fortin, Department of Legislative Audit, (605) 367-5810 or
Wendy Semmler, Department of Revenue and Regulation, 605-773-4923
ABANDONED CEMETERIES Ch 7-26

- Cemeteries subject to county maintenance. For the purposes of § 7-26-7 the term "abandoned cemetery" means a cemetery, in which no burial of a human body has taken place for five years and which has not been, for a period of five or more years, maintained by any person, church, religious or benevolent society, or any civic organization. 7-26-7

- Regulation and maintenance of abandoned cemeteries--Cemetery board of directors--Appointment--Powers--Reports--Appropriations. The board of county commissioners may regulate and maintain abandoned rural cemeteries. value to be used for tax purposes. Except as otherwise provided in § 10-6-137.1, the formula may
include, for any or all of the five tax years following construction, all, any portion, or none of
the assessed value for tax purposes. Any formula adopted must be equally applied to specifically
classified properties within a tax increment finance district.
The board of county commissioners of the county in which the structure is located may,
if requested by the owner of the structure, fully assess the structure without application
of the formula. In waiving the formula for the structure of one owner, the board of county
commissioners is not prohibited from applying the formula for subsequent new structures.

pursuant to this section, and the value may not be less than the assessed value of the property in
the year preceding the beginning of construction. The period that the property is valued for tax
purposes under this section may include the years when the property is partially constructed.
Following the five-year period under this section, the property must be assessed at the same
percentage as all other property for tax purposes, except as otherwise provided in § 10-6-137.1.

The county auditor shall reconcile the published list of unpaid taxes to the unpaid taxes in the tax list. 10-23-2

- **Time and place of annual sale—Adjournment from day to day—All taxable property subject to sale except certain homesteads.** On the third Monday of December in each year, between the hours of nine a.m. and four p.m. the treasurer shall offer at public sale at the courthouse, or at the place of holding circuit court in his county, or at the treasurer's office where by law, the taxes are made payable, all lands, town lots, or other real property which shall be liable for taxes of any description for the preceding year or years, and which shall remain due and unpaid, and he may adjourn the sale from day to day until all the lands, lots, or other real property have been offered. The treasurer is further authorized and required to sell as aforesaid all real property in his county in which taxes remain unpaid and delinquent for any previous year or years. 10-23-12

- **Purchaser at sale entitled to certificate—Contents—Evidence of regularity of proceedings.** The purchaser of any tract of real property sold by the county treasurer for taxes shall be entitled to a certificate describing the land so purchased, the sum paid, and stating the time when the purchaser will be entitled to a deed, which certificate shall be signed by the treasurer in his official capacity, and shall be presumptive evidence of the regularity of all prior proceedings. 10-23-18

- **Certificate of sale to county—Tax receipt not issued—Interest on certificate.** If the county treasurer of any county bids off any real property in the name of the county, the treasurer shall make out a certificate of purchase to the county in the same manner as if sale had been
made to any other person. The certificate shall be retained by the treasurer, but no tax receipt may be issued and no amount may be due the state, or any other fund. No treasurer's commission may be paid by the county until redemption has been made from the sale or the time of redemption has expired, or until the interest of the county has been assigned. The certificate issued to the county shall bear interest at the Category G rate of interest as established in § 54-3-16. 10-23-25

• **Right to redeem real property sold—Amount paid—Memorandum and receipt by treasurer.** Any person may redeem real property sold for taxes at any time before issue of a tax deed for the property, by paying the treasurer, for the use of the purchaser or the purchaser's heirs or assigns, the sum mentioned in the certificate, and interest on the sum at the rate at which the real property was sold from the date of purchase, together with all other taxes subsequently paid, whether for any year or years previous or subsequent to the sale, and interest on the taxes at the same rate from the date of the payment. The treasurer shall enter a memorandum of the redemption in the list of sales and give a receipt for the redemption to the person redeeming the property. The treasurer shall file a duplicate of the receipt with the county auditor as in other cases. The treasurer shall hold the money subject to the order of the purchaser, the purchaser's agent, or the purchaser's attorney. 10-24-1

• **Right to redeem property bid off by county—Tax receipts and duplicate—Notations.** Any person may redeem property bid off by the treasurer in the name of the county at a tax sale, at any time before the tax deed has been issued by paying the amount of all delinquent taxes with penalty and interest up to the date of redemption and the costs of advertising and selling the property. Upon the payment of the taxes, penalties, interests, and costs, the treasurer shall issue a tax receipt and duplicate for the taxes, penalty, interest, and costs, which shall be entered in the treasurer's cashbook as other tax receipts. The treasurer shall also mark upon the tax duplicate in the treasurer's office opposite the description of the real estate the word, redeemed, with the date and name of the person who redeemed the property. 10-24-5

• **Right of part owner to make partial redemption from real property sale—Acceptance by certificate holder or decision required for completion of redemption.** Any person claiming a part of or an undivided interest in any real property sold for taxes, if the part or undivided interest was acquired before the tax sale from which redemption is sought, may redeem the part or undivided interest at any time before a tax deed has been issued on the property by paying the just proportion of the total amount required for redemption. The just proportion is the proportion that the then existing value of the part or interest for which redemption is sought bears to the then existing value of the whole, as computed by the county treasurer at the time. If the tax sale certificate is held by a person other than the county, the redemption is not complete until the certificate holder accepts the portion so determined by the county treasurer or until the matter is decided as provided in §§ 10-24-12 to 10-24-15, inclusive. 10-24-9

• **Period within which tax deed may be procured.** In the case of any real property sold for taxes and not yet redeemed, the owner or holder of the tax certificate may conduct, or cause to be conducted, proceedings to procure a tax deed on the real property, as provided by §§ 10-25-2 to 10-25-12, inclusive. The proceedings shall be initiated no sooner than three years from the date of the tax sale or at any time thereafter within six years from the date of the tax sale subject to the provisions of §§ 10-25-16 to 10-25-19, inclusive. The time period applies equally to the county or any other purchaser of the tax certificate. Any assignee of a tax certificate shall take the certificate subject to the time period of the first owner of the tax certificate. 10-25-1

Purchase of prior tax certificates required before issuance of deed. The person demanding the tax deed shall purchase the assignment of all prior tax certificates held by the county on the real property before the county treasurer may issue the tax deed. 10-25-10

Time allowed for completion of proceedings to procure tax deed--Cancellation of certificate and bar of lien. The commencement of proceedings to procure a tax deed within the periods limited in §§ 10-25-16 and 10-25-17 does not extend the lien of the holder of the tax sale certificates more than six months beyond the expiration of the periods of limitations. If any such proceedings, commenced within the time limited by §§ 10-25-16 and 10-25-17, are not completed, and the right of the party instituting the proceedings to receive a tax deed under the provisions of §§ 10-25-1 to 10-25-12, inclusive, is not fully completed and established, within six months after the expiration of six years from the date of the tax sale certificate upon which the proceedings are based; allowing, however, to purchasers of tax sale certificates assigned by the county the additional period of one year from the date of the assignment within which to commence such proceedings and six months after the expiration of the period of one year within which to complete the proceedings; then all rights under the proceedings cease and are forever barred and the county treasurer shall cancel the tax sale certificate in the manner provided in § 10-25-16. Thereupon, the lien of the holder of the tax sale certificate is extinguished and all further proceedings on the tax sale certificate are barred. 10-25-18

Any county that has acquired or may acquire title to any land by tax deed may commence an action in the county to quiet the title to the land. In any such action, several tracts of land, contiguous or noncontiguous, may be included in one complaint and all persons claiming any title to, interest in, or lien upon any of the lands may be joined as defendants. Upon request of the board of county commissioners of the county, the state's attorney shall promptly commence and prosecute to final judgment any such action. 10-25-24

Limitation of proceedings to contest tax deed--Defenses in action by tax-deed grantee. No defense may be interposed or maintained by the former owner, or by any person claiming under him, in any action brought to quiet the title in the grantee in any tax deed, or by any person claiming under such grantee, in any tax deed issued and delivered by any county treasurer of any county in this state, unless such defense is

The list shall include all such taxes upon any real estate that may at any tax sale have been bid in for the county, except real estate upon which the county holds school loans, and shall include all tax judgments against lands that have not been sold or bid off for the payment of the judgment. If a tax judgment stands against any such real estate, unsatisfied, the taxes and interest shall be computed as if the judgment had not been taken, and a sale of the real estate under the provisions of this chapter satisfies the judgment. The list shall contain a description of each piece or parcel of land and each lot, block, and addition, upon which taxes have not been paid as specified in this section. Opposite each description the name of the owner to whom the taxes are assessed, if known, shall be specified. If the name of the owner is unknown, a statement to that effect shall be provided. If the court determines that the tax was wrongfully collected, in whole or in part, for any reason going to the merits of the tax, the court shall enter judgment accordingly, and such judgment shall be paid in preference to any other claim against the county, upon the final determination of the action. A pro rata share of the money so refunded shall be charged to the

in excess of the base will be paid to the municipality as provided in § 11-9-28. • Taxation of property in district. With respect to the municipality, the county, school districts and any other local governmental body having the power to levy taxes on property located within a tax incremental district, the calculation of the assessed valuation of taxable property in a tax incremental district, for purposes of computing the dollar and cents rates of such taxing units, may not exceed the tax incremental base of the district until the district is terminated. The dollar and cents rates of all such taxing units so determined, however, shall be assessed and extended against all taxable property in the tax incremental district at its current assessed valuation. However, no change in South Dakota law affecting taxation of property may result in a lesser rate for the tax incremental base until the district is terminated pursuant to this chapter. 11-9-27

• Bonds or contracts authorized by resolution. Tax incremental bonds, contracts, or agreements shall be authorized by resolution of the governing body without the necessity of any voter's approval. 11-9-34

• Termination of tax incremental district. The existence of a tax incremental district shall terminate when:
  (1) Positive tax increments are no longer allocable to a district under § 11-9-25; or

Notes

4. The motions, points and proposals have no established order of precedence. Any of them may be introduced at any time except when the meeting is considering one of the top three matters listed in the chart (motion to adjourn, motion to recess, point of privilege).

5. But division must be called for before another motion is started.

6. Then majority vote is required.
